NEMETSCHKE Bulgaria

Profile

NEMETSCHKEK Bulgaria is a leading software development company in Eastern Europe, providing high-end solutions and services in the area of software R&D, marketing and implementation, focusing on the EU, USA and the Middle East markets.

Nemetschek Bulgaria was founded in 1998 as a part of the "Global Sourcing" strategy of Nemetschek AG, Germany and operates independently since year 2002.

Nemetschek Bulgaria has strategic alliance with the European Software Institute /ESI/, Spain.

Currently the company has employed more than 100 IT professionals, structured in two divisions - Sales & Support Division and Software Development Division.

We strictly follow the common principles for best Software Development Processes based on CMMI /Capability Maturity Model Integration/ & PSP /Personal Software Process/ methodologies.

In October 2007, as a result of a official SEI SCAMPI v1.2A appraisal Nemetschek Bulgaria assigned the Maturity Level 2 relative to CMMI v1.2 DEV, Staged Representation.

Nemetschek Bulgaria has completed the 3 IT Mark assessments (Basic, Premium and Elite) provided by the European Software Institute (ESI, Spain).

Nemetschek Bulgaria is certified against the latest process-oriented International standard EN ISO 9001:2008 and the Information Security standard ISO 27001:2005.
